

Project Initialization and Planning Phase

Date	30 September 2026
Team ID	PER206AIFITTRACK
Project Name	AI-FitTrack-API
Maximum Marks	3 Marks

Define Problem Statements (Customer Problem Statement Template):

Create a problem statement to understand your customer's point of view. The Customer Problem Statement template helps you focus on what matters to create experiences people will love. A well-articulated customer problem statement allows you and your team to find the ideal solution for your customers' challenges. Throughout the process, you'll also be able to empathize with your customers, which helps you better understand how they perceive your product or service.

Example:

Problem Statement (PS)	I am (Customer)	I'm trying to	But	Because	Which makes me feel
PS-1	Beginner Fitness Enthusiast	Log workouts and track calories burned	Manual logging in notes or paper is disorganized	Commercial fitness apps charge expensive subscriptions	Frustrated, disorganized, and demotivated
PS-2	Busy Working Professional	Get daily routines tailored to available equipment	Pre-made internet plans are rigid and personal trainers cost \$100+/hr	Apps lack instant generative AI customization	Overwhelmed by workout decision fatigue
PS-3	Progress-Driven Athlete	Analyze workout history and detect plateaus	Raw logs lack intelligent progress and recovery feedback	Standard apps do not evaluate consistency trends with LLMs	Stuck at plateaus and unsure of recovery needs
